

ACUTE

CENTER FOR EATING DISORDERS

Complicated Conditions, One of a Kind Care

Preferred Air Ambulance Provider For ACUTE

ACUTE Center for Eating Disorders at Denver Health is the only specialized medical stabilization program in the U.S. equipped to manage the life-threatening medical complications of severe eating disorders. Due to the fragile and severe nature of their illness, patients transfer from hospitals across the country to receive the life-saving care that only ACUTE offers.

Dr. Mehler is a world-renowned expert in medical complications of eating disorders and has authored more than 300 related publications.

Founded in 2008 by Dr. Philip S. Mehler, the ACUTE Center for Eating Disorders is located on a private med-

surg unit at Denver Health Medical Center. ACUTE patients benefit from the resources of a major medical hospital while receiving care from an experienced, multidisciplinary team who specialize in eating disorder treatment.

ACUTE patients are typically below 70 percent of their ideal body weight and suffer from serious medical complications as a result of their eating disorder. ACUTE's evidence-based program provides patients customized care. Every patient that enters ACUTE receives a highly individualized treatment plan designed to:

- Alleviate any medical complications associated with severe anorexia nervosa or bulimia nervosa
- Avoid and manage the potentially fatal risks of refeeding syndrome
- Prepare him/her for a smooth transition into a traditional inpatient or residential eating disorder treatment program

Centers of Excellence, like the ACUTE Center for Eating Disorders, are hospitals and facilities that provide clinical expertise and life-saving treatment not available anywhere else in the country. However, critical patients in need of specialized care may be hundreds or thousands of miles from these exceptional facilities. When a patient needs a long distance transfer, you can count on Angel MedFlight.

Our dedicated team coordinates seamless air medical transports, so patients receive the highest quality care for their specific conditions...not just the most convenient care.

- Our critical care team provides Bedside-to-Bedside® transfers on a fleet of medically configured Learjets to ensure safe, comfortable domestic or international flights.
- Angel MedFlight's insurance specialists verify insurance benefits and submit flight preauthorization requests.
- We use our experience to simplify the process, save valuable time and expedite medical flights for our patients.

Please call us any time.
Our flight coordinators are available around the clock.
